*Explanations of the exams and assessment below...*

**Kindergarten Early Assessment**, also known as a kindergarten readiness assessment (KRA), is a test that evaluates a child's readiness for kindergarten.

**WIDA Screener** is an assessment used to identify students who are English Language Learners (ELLs) by measuring their English language proficiency in listening, speaking, reading, and writing, helping educators determine if a student needs additional English language support services.

**Measure of Academic Progress (MAP) Baseline Test** is a standardized assessment used to establish a student's initial academic performance level at the beginning of a school year, providing teachers with a starting point to track their progress and tailor instruction throughout the year based on individual strengths and weaknesses.

**Measure of Academic Progress (MAP) Mid-Cycle Progress** refers to a mid-year assessment that measures a student's academic growth in reading and math compared to their baseline performance at the beginning of the school year, allowing teachers to monitor progress and adjust instruction accordingly.

**Measure of Academic Progress (MAP) End of Cycle** refers to the final administration of the MAP assessment given to students at the end of a school year, which measures their overall academic growth throughout the year compared to their baseline performance at the beginning of the year.

**WIDA Access** is a standardized assessment used to measure the English language proficiency of students identified as English Language Learners (ELLs) from grades K-12.

**NAA** is a state-administered test designed for students with significant cognitive disabilities who cannot participate in the standard standardized tests based on their Individualized Education Program (IEP).

**SBAC** is a standardized test that measures a student's progress in both English Language Arts (ELA) and Mathematics, assessing their understanding of key concepts aligned with Common Core State Standards at their grade level.
